

## 1. ADELCO S.A.

Adelco, is one of the oldest and most respected Manufacturers of Pharmaceutical Products (branded Generics and unique combinations) in Greece, many of which hold leading position in there category in Greece and are exported to over 20 countries.

Our production line includes solid, Semi-solid and liquid forms ie (tablets, capsules, Syrups, cream, Sterile injections)

All our products are manufactured according to EU-GMP standards.

Furthermore, Adelco, over the last 3 years has completely renovated its production area, which has tripled our capacity and we are also open to any form of exclusive Distribution Agreement, contract manufacturing and licensing agreements.

Adelco has a dynamic presence in Greece since 1934. Today Adelco operates in two main areas: pharmaceuticals and cosmetics.

In the field of Pharmaceuticals, Adelco circulates more than 60 formulations (Filicine, Minitran, Stedon, Normolose-H, Parotycin) for the treatment of diseases such as megaloblastic anemia, mental disorders, anxiety, insomnia, depression, hypertension, otitis media.

The company occupies a modern vertical production unit of 10000 sq.m., with 75 skilled persons, and a well-organized group of representatives throughout Greece and internationally, including a Representative office in Jordan covering the MENA region and office in Melbourne, Australia to cover Oceania region.

Adelco also produces an extensive range of hair and body care products for babies, children, women and men.

Adelco Kids. Adelco Intense spa, Adelco velvet
