

## **VIORYL S.A.**

VIORYL S.A. was originally created in 1948 as a research laboratory for natural products and soon expanded its activities in the production of fragrances and flavors, with aim to supply the national Greek market with adequate compounds.

Thereafter, early in the 60s we expanded in fine chemicals synthesis and late in the 80s moved towards agro active products (pheromones, growth regulators, special fertilizers, ecological insect traps etc).

VIORYL's production line includes mainly the following products:

- \* Fragrances for soaps, detergents, colognes, cosmetics, air fresheners, household applications, candles, fine perfumes and many others.
- \* Natural & Natural identical flavors for bakery, soft drinks, beverages, fruit juices, dairy products, ice creams, confectionery, jams, chewing gums, toothpaste etc.
- \* Important range of aromatic fine chemicals, used by the flavor producers

VIORYL's extensive progress in new products is the direct result of its continuing participation in the most advanced European and International scientific programs, which include the development of new technologies This VIORYL's intense & innovative research is supported by an experienced team of Analytical Department, equipped with the latest technology equipment and the Company reinvestment 15% of its yearly turnover for research and development in new products and new production processes.

Since 1999 has been certified by TUV with ISO-9001 & FSSC 22000 Certifications.
